Please note:

From time to time it is necessary for us to carry out some much needed aeration work and projects on the golf courses, which may result in uneven and sandy playing surfaces. In certain instances 9 holes or 18 holes on a given course may be closed thus reducing the total number of golf holes available.

The Hotel reserves the right to carry out such maintenance practices when necessary without informing The Operator or clients in advance but will of course make every effort to minimise the frequency and inconvenience at all times.
